THE N. W. COUNCIL.

The speech with which His Honor the Lieutenant Governor opened the present session of the North West Council contains very little of interest to the people of this district, except the reference to the Municipal and School Ordinances. Both of these Ordinances are very much in need of amendment, and the Council should endeavor to put them in a workable condition at once. It is of the utmost importance to us to have good schools, and to have good schools we must have a good school law. If the Public School system was in its infancy there might be some excuse for the Ordinance which at present governs the schools of the Territories. But with the experience of the whole of America before them, there is no excuse for the Council not putting a good workable system upon the statute books. The general principles upon which this Ordinance is drawn are excellent, but the minor details upon which the working of the system depends are very faulty. The fact that the Ordinance was to govern schools in towns as well as in rural municipalities seems to have been lost sight of altogether, but it will have to be remembered in amending the Ordinance, or it will still be unsatisfactory. The Council will in this particular be very much assisted in their labors by the practical information which has been obtained from the school boards already organized.

Although the Municipal Ordinance shows signs of being drawn by a more skilful draftsman or from a better model than the School Ordinance, there is a great deal of room for amendment in it also. Greater powers should be given to Town Councils, and other means of raising a revenue than by direct

taxation, which is always a heavy burden upon early settlers, and is especially apt to retard the growth of a new town. Large portions of the revenues of towns in the east are raised by fees for licenses and fines for infringement of by-laws. One of the powers of the North West Council is to issue shop, auctioneer and other licenses in order to the raising of a revenue for territorial or municipal purposes. The only licenses which are likely to be much in request for some time to come are for billiard tables and auctioneers. These are at present issued by the Lieutenant Governor to raise a revenue for territorial purposes, and the power to issue a lot of licenses which are not likely to be in demand until there is a much greater population than at present is given to Town Councils. It would be of far greater advantage to the Territories if the power to issue all these licenses, within their own limits was delegated to Town Councils in order to assist them in raising a revenue for municipal purposes. The introduction of the ballot for municipal elections would be another amendment that would improve this Ordinance.

Although there are at present a majority of elected members in the Council, it can hardly be called a representative or responsible body, with eight appointed members, one of whom has two votes, and who are all dependent upon the Government at Ottawa for their bread, it must of necessity be the creature of the appointing power. This system might work very well among the natives of India, but in free America it is not to be tolerated, and the people of the Territories should by one voice refuse to be satisfied any longer with the shadow of responsible government.

A circulating library in connection with the Presbyterian Church is being established in Battleford. We commend the scheme, and think some of the surplus cash in town might be put to a similar use.

The *Manitoba* says:—Mr. Pugsley, president of the Regina and Long Lake Railway, is rapidly improving in health. He states that tracklaying on the Regina and Long Lake Railway has now reached the Qu'Appelle valley. It is the intention of the company to have a steamer on Long Lake in the spring which will run from the Qu'Appelle valley about 60 miles north. This will greatly facilitate traffic between the Canadian Pacific and Prince Albert and Battleford. It is also expected that the railway will be pushed on to the Saskatchewan next season.

Considerable talk has been indulged in during the past week about the uneasiness manifested amongst the Indians, and we believe not without foundation. This state of affairs is very detrimental to the true progress and prosperity of this place. It is now greatly to be regretted that B. Battery has been removed from our midst. We think that steps should be taken immediately to give us greater protection. At present we have only a small force of Mounted Police and a limited number of arms, and in case trouble should arise assistance could not be rendered in reasonable time, being so far from railway communication.

There is great excitement in Calgary over a sentence which Judge Travers passed upon Mr. J. Clark, one of the councillors of that town.

It appears that the N. W. M. Police have been in the habit of entering and searching the premises of any person suspected of having liquor in his possession without a permit, and to make a test case of it and have it finally decided whether the Police had this power, Mr. Clark refused to allow two policemen in plain clothes and without a search warrant to search his store. For this resistance he was tried and convicted of assault, and sentenced to six months' imprisonment. The Town Council passed a resolution, in which the sentence was referred to as "unjust, severe and arbitrary," and an indignation meeting was held at which the Mayor presided, and a delegate was appointed to go to Ottawa and interview the Minister of Justice for the purpose of having the imprisonment remitted. A large sum of money was raised to pay the expenses of the delegate to Ottawa. This is not the first occasion on which Judge Travers has come in conflict with the people of Calgary on account of the severity with which he has meted out punishment. Shortly before this he had sentenced a prisoner to a long term of imprisonment for a minor offence, but he afterwards wrote to the Minister of Justice asking him to remit a part of it, but since the action of the people in the Clark case he has telegraphed the Minister to leave the sentence as it is. We are sorry for the residents of the Calgary district if they have a modern Jeffries presiding over their court, and we feel like congratulating ourselves that Judge Rouleau chose to remain in this district when the choice of either remaining here or taking the Calgary district was given him when the fourth stipendiary for the Territories was appointed.

NORTH WEST NOTES.

EDMONTON.

From the Bulletin.

No sign of ice in the river yet.
St. Albert Mission has tried the experiment of sowing spring wheat in the fall this season. The same experiment was tried several years ago, and the crop made a good appearance, but was cut off by hail.

Rev. John McDougall and wife left for Whittell lake on Tuesday last.

Telegraph line commenced working on Thursday afternoon after a long rest. Jarvis & Stewart left on Tuesday for Victoria with several loads of Indian supplies.

St. Albert school has an attendance of 193 pupils, and an average attendance of 80.

A detachment of Police leave Fort Saskatchewan today to attend the treaty payments in Victoria agency.

Sergt. Gordon and a detachment of ten police arrived from Bear's hill on Tuesday. No further arrests were made.

The census returns for this district have been completed, and were forwarded to Ottawa by yesterday's mail.

Rev. Pere Lacombe, principal of the Indian Industrial School at High River, is taking south with him some children from Michel's, Knoch's and Papa-stay-on's hands to attend the school. The Blackfeet, for whose benefit the school was organized, refuse to attend and submit to authority.

M. McLeod has a specimen of native flour from red and white wheat, grown at Hardisty & Fraser's mill, comparing favorably in color and quality with the best Winnipeg flour. The return was 100 pounds of flour to two and three quarters bushels of wheat.

BATTLEFORD.

From the Herald.

BATTLEFORD, Nov. 9.—Wagons by the dozens and carts to correspond, all laden with freight, filled into town on Friday.

A regularly established meat shop and a good bakery are among the industries established here this fall.

A new residence for the officers and a stable 30x100 feet, are in course of erection at the police barracks.

The patients in the police hospital have been removed to the building owned and until lately occupied by Constable Guthrie.

More building timber has been brought into town during the past month than in any similar period in the history of the town.

The Industrial School has been removed again—this time into the house lately occupied by Mr. Eas. Mr. Scott's house is to be made the Principal's residence and the boarding department of the school, when the house at present occupied will be converted into a school room and storehouse.

FORT McLEOD.

From the Gazette.

FORT McLEOD, Nov. 17.—It has been decided to build Presbyterian churches at McLeod and Lettbridge. Almost enough money has been subscribed in both places, and tenders will soon be called for.

While A. F. Gray was putting up some chimneys at the barracks on Tuesday evening, the iron hooks on the end of the ladder broke, and he fell to the ground a distance of about fifteen feet. He was rendered insensible by the fall, and has been obliged to keep to his room since.

On Thursday night fifteen horses were taken out of Rich's corral, a few miles below town, and run off. At night when the people on the ranch went to bed, the bars of the corral were all secure and the horses inside. During the night the bars were let down, laid to one side and the horses driven off. An Indian cap and moccasin were left very conspicuously in the middle of the trail near the corral. This was evidently a very clumsy attempt at a bluff, as it is pretty well known that the thieves were white men.

QU'APPELLE.

From the Progress.

QU'APPELLE, Nov. 20.—B Battery is now in comfortable quarters. They are

occupying the whole of the immigrant buildings, and are arranging for Mr. Baker's two offices, which we understand has been granted.

The new Methodist church at the Fort will be dedicated next Sunday. Mr. Ogilvie has placed a grain buyer at Wolsley.

The contract has been let for the erection of the curling rink.

GENERAL NEWS.

PORT MOODY, B.C.

From the Gazette.

PORT MOODY, B.C., Nov. 14.—There were eight car loads of cattle brought down Monday night.

The mountain peaks north and east of here have received a fresh coat of the "beautiful."

West bound train No. 2 on Sunday last came into collision with a hand car in charge of engineer Brophy and party, near the Hope tunnel. The hand car was wrecked, but Mr. Brophy and his men escaped unhurt.

The Island Sentinel notes the production of potatoes near Kamloops weighing three and a half pounds; but J. K. Lydon, a rancher on Lake Komo, recently shipped from his garden a potato that tipped the beam at four pounds four ounces.

PORTAGE LA PRAIRIE.

From the Tribune-Review.

PORTAGE LA PRAIRIE, Nov. 23.—Dr. Macklin has been engaged by the council to attend to vaccination matters in town, as provided by law.

The members of the Masonic fraternity intend celebrating in some appropriate manner St. John's Day, Dec. 24.

It is said the smallpox has reached Winnipeg. The vaccination boom has, in consequence, struck the Province.

Mr. A. Bailey, of High Bluff, had five head of cattle drowned in the Assiniboine last Friday. The cattle went to the river to drink, and broke through the ice.

The grain market has been rather more quiet this week than last. Prices have been ranging from 65c to 75c for best wheat.

Capt. Stupard will entertain the members of C. Co., 71st Battalion, to an oyster supper on December 2nd. It is intended to cut the cake that night which was presented to the company by the ladies of St. Mary's Church.

A meeting of the curling club was held on Tuesday evening, when rinks were formed and fifteen ships appointed. The club starts out with sixty paid up members and more to follow.

John O'Rilly claims to be the first retailer in Manitoba to import tea direct from Japan. He received fifty half chests direct a few days ago.

A special train of twenty-one cars, of wheat made up at Virden, Man., has arrived in Montreal. The run from Winnipeg was made in five and a half days, which includes all stoppages.

STONEFALL.

From the News.

STONEFALL, Nov. 21.—The attendance at both schools is rapidly increasing.

The report comes from Argyle that the wheat crop was not damaged so much by the frost as was at first expected, as there are very few instances of its being unfit for flour.

One day last week Wm. Vincent of Victoria went on a hunting expedition. He started in the bluff of Mount Early in the morning, and by 2 o'clock in the afternoon succeeded in bagging 110 rabbits.

The building for Reid & Anderson's crushing mill is now completed.

All hands are now busily engaged in erecting the curling and skating rink. The main building will be 45x44 feet, and the waiting room 12x4.

During the past week Castle of Boshon of Stony Mountain has received a large influx of permanent Indians in the shape of Indians and half-breeds who could not keep quiet during the rebellion in the North West.

Mr. Baxter, of Argyle, brought in a sample of his wheat just as it came from the threshing machine. It has been pronounced as fine a sample as yet shown.
